TERRIFIC LEGAL BATTLE BEGINS

Harry K. Thaw Fighting Deportation From Canada.

NEW YORK OFFICIALS ACTIVE

District Attorney Conger Feels Confident That Action of the Dominion Authorities Will Return Thaw to the Insane Hospital at Matteawan, N. Y., From Which He Escaped Last Sunday.

Sherbrooke, Que., Aug. 21.—Harry Kendall Thaw's legal fight against deportation to the United States after his dramatic escape from the Matteawan state hospital for the criminal insane Sunday morning began in the open in this Canadian frontier town.

He was produced before Judge Globsky of the superior court on a writ of habeas corpus obtained by his counsel.

If the writ is sustained he will be a free man. But for how long is problematical.

Dominion immigration authorities announced that they stand ready to detain him, should he be released, and then to take steps to thrust him back across the border as "an undesirable alien," either at the New Hampshire line, or at some point in New York state.

Facing such a situation Stanford White's erratic slyer, ordinarily loquacious, has shut his lips tight and for once in his life has refused to be interviewed.

He has talked vaguely of matters not pertaining to his escape, but not one word has come from him regarding his flight from Matteawan or of the inception of the plot that led to his delivery, or of the five men who spirited him away.

Alleged Confederate in Jail.

Of these five one is believed to be in jail in Sherbrooke. He gave the name of "Mitchell Thompson," and insisted that he was a resident of Toronto.

But both Sheriff Hornbeck and District Attorney Conger of Dutchess county, New York, who looked him over, said he was none other than "Gentleman Roger" Thompson, reputed chauffeur of the black auto that whirled Thaw from Matteawan at more than sixty miles an hour.

Thompson was filling in the superior courtroom waiting for Thaw's case to come up when the immigration officers arrested him.

He was identified as one of the two men with Thaw when he was arrested. He denied that he had aided Thaw in crossing the border and maintained that he had met the fugitive by chance.

Notwithstanding his protestations of innocence he was held in \$500 bail for a hearing Friday. Unable to furnish the bond he was remanded to jail.

Technically he is charged with aiding and abetting a lunatic to cross the Canadian border, an offense punishable with a \$500 fine.

May Seek His Extradition.

If the authorities fail to hold him on this charge District Attorney Conger will seek his extradition in a warrant charging Thompson with conspiring with others to defeat justice in liberating Thaw.

Thompson's defense, it is understood, will emphasize (provided he admits coming across the border with Thaw) the contention that Thaw has not been found insane in Canada and that assisting him to enter was, therefore, not a violation of the law.

In this way the question of Thaw's sanity will be involved in the procedure separate from his own case.

"I am here to get Thaw," said Mr. Conger. "Get him I will. He will surely be returned to New York state, probably by deportation, as the Canadian government does not want him on its hands. If not by deportation, then by extradition."

Mr. Conger carries with him a warrant charging Thaw and his five deliverers with conspiracy, but admitted that its efficacy was uncertain. "That is the least of my worries, though," he added.

The alleged offense with which Thaw is charged is, briefly, that he is a fugitive from Matteawan penitentiary, where he was serving a life sentence for a criminal charge of which he was convicted.

Portland, Ore., Aug. 21.—It cost Franklin K. Lane, secretary of the interior, \$10,000 a year to maintain a home as a cabinet officer and \$2,000 a year for ice cream and pink teas, according to a statement he made to friends while discussing the high cost of living for government officials in Washington. This dissipates his salary of \$12,000 a year. He pays \$1,500 a year rent, has two servants and is not a lavish entertainer.

CHARGES AGAINST GEORGIA JURIST

Federal Judge in Danger of Being Impeached.

Washington, Aug. 21.—Charges which, if sustained, may result in another impeachment case in the senate are made against Federal Judge Emory Speer of the Fifth Georgia circuit in papers considered in a guarded session of the house judiciary committee.

The committee had before it the report of an investigation of Judge Speer's conduct by Special Examiner Lewis, submitted by the department of justice along with numerous affidavits and other exhibits.

No action was taken, the committee adjourning until Friday and each member pledging himself not to discuss the charges.

It is possible that at Friday's session of the house the matter may be formally brought up, with a view to outlining a plan of action by the committee in the event it should determine to report the charges to the house either favorably or unfavorably.

LIND RUMOR IS DISCREDITED

Report of Shooting of Envoy Not Backed Up by Any Facts.

Washington, Aug. 21.—An unfounded rumor was in circulation in El Paso, according to dispatches from that city, that John Lind, special envoy of President Wilson, had been shot in Mexico City.

The source of the rumor could not be learned and it is discredited here. It is likely that it originated from wire troubles between El Paso and the Mexican capital and the fact that no communication could be had between the two places.

TRAPPED IN TUNNEL BY FIRE

Thirty-five New York Workmen Run 1,500 Feet.

New York, Aug. 21.—Thirty-five workmen, caught 440 feet underground in a section of the Catskill aqueduct in course of construction under Washington Heights when fire broke out in the shaft house overhead, were found unharmed two hours later when the fire was controlled. Their only suffering had been from lack of air, cut off by the smoke.

The fire was spectacular and besides damaging the massive shaft building, spread to apartment houses closely adjoining it. Two apartment buildings were burned.

When the fire broke out the men in the underground workings fled 1,500 feet to the end of the section.

Duluth, Aug. 21.—The McAlpine murder mystery remains unsolved. No arrests have been made and the police claim they know of no one able to solve the riddle. Chief Tryer said that he is as much in the dark as any one regarding the tragedy.

It is hoped that a working hypothesis may be gleaned from the transcripts of the testimony at the corner's inquest. These are not yet ready.

SENATE MIFFED OVER CLAYTON

Prospective Election Contest at This Time Not Relished.

TARIFF BILL COMES FIRST.

Then, With the President's Insistence on Currency Legislation, the Upper House Has About Enough to Do In the Heated Session—Governor O'Neal Opposed to Hobson.

By ARTHUR W. DUNN.

Washington, Aug. 21.—[Special.]—The United States senate does not relish the idea of having an election contest case involving constitutional questions thrown upon it at this time. That is one reason why ill feeling has been expressed because the governor of Alabama appointed Henry D. Clayton senator.

If there was no question as to the right of Clayton to the seat he would be welcome to the senate. He made a very good impression when he was chief manager of the impeachment case against Judge Archibald, and he is conservative enough to satisfy the senate. But to have an election contest with the tariff bill a long way from completion and the insistence by the president of currency legislation is a little more than the senate can stand.

The Alabama Situation.

Men who went to Alabama to attend the funeral of the late Senator Johnston came home with inside information concerning the Alabama situation, which explains the action of the governor. For nearly a year Congressman Hobson has been making a canvass for the senate. It is generally conceded that he would have given Johnston a hard race and that now he can probably defeat almost any other man except Majority Leader Underwood, and Underwood is not a candidate.

Governor O'Neal is very much opposed to Hobson. He knows that if a special election should be called Hobson has a great advantage on account of the canvass he has made and with a good organization in every county. That is why he does not want to promote Hobson's chances and desires to have his appointee seated while the opposition gets its forces organized against Hobson.

Lining Up the Parties.

Chairman Simmons attempted to fix a time for a vote on the tariff bill, and all he accomplished was in lining up all the Republicans, regulars and progressives, in opposition to the bill. Perhaps that was satisfactory. It also showed that the Democrats had determined to stand by their caucus action and support the bill without amendment.

When the last Democratic tariff bill was passed a caucus arrangement was necessary, only then the minority was able to hold up the majority of the party for higher duties. Senator Mills of Texas was often twitted by Senator Hoar of Massachusetts of promising the people of his state free coal if the Democrats came into power, and he would then ask Mills to move a free coal amendment.

Mills would fume and burst out with a declaration that it was well known that his hands had been tied by the caucus action.

Votes of Yesterday.

Hours were consumed recently in the senate upon the subject of how men voted on different amendments to the tariff bill four years ago. Talking about the nonimportance of "last year's birds' nests," it would seem that tariff votes four years ago have about as much bearing upon the questions before the senate as the nests in which the last crop of birds were hatched has upon the taste of the fowls.

Must Be a Real Humorist.

"Unless a man is a real humorist he had better not undertake to indulge in humor," remarked Senator Gallinger in the senate. The New Hampshire senator went on to say that a few days previously he had attempted a bit of humor and it had been taken so seriously that he was moved to make an explanation. There are only a very few humorists in the senate.

Lodge Scores a Point.

It has often been asserted that Senator Lodge never shows a sense of humor, yet he scored on John Sharp Williams the other day. The debate had been running along outside of real tariff discussion for two hours, during which Williams had spoken several times, when Lodge obtained the floor.

"I hope we may now get back to the tariff schedules," said the Mississippi senator.

"I fully sympathize with the anxiety of the senator from Mississippi," said Lodge. "I always feel that way myself after I have spoken three or four times on a subject, and I then think that the debate ought to close, as I do not want others to talk."

Rather Cold Comfort.

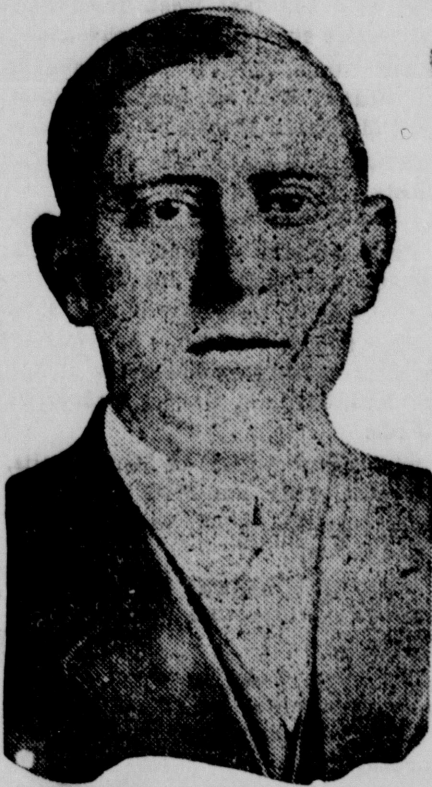

Senator Thornton of Louisiana voted with the Republicans for protection on certain agricultural products, but there was cold comfort in that for the minority party. They knew that Thornton hoped to secure support from the agricultural states for a duty on sugar.

MAURY I. DIGGS.

Is Found Guilty of Violating Mann Act.

DIGGS GUILTY OF VIOLATING MANN ACT

Californian May Be Given Twenty Years in Prison.

San Francisco, Aug. 21.—In eloping with Marsha Warrington from Sacramento, Cal., to Reno, Nev., Maury I. Diggs, former state architect of California, was guilty of violating the Mann act, which makes it a felony to transport women for immoral purposes from one state to another.

This was the verdict of the jury that tried him.

There were six counts in the indictment and the jury found a verdict of guilty on the first four. Each count carries a maximum penalty of five years and a minimum of one year in a federal penitentiary.

Diggs, his wife, father, mother and his three aunts, Mrs. Drew Cammetti and Mrs. Anthony Cammetti, were in court, waiting the verdict. Diggs was obviously distressed and his wife showed the tension she was under.

The questions of the foreman clearly foreshadowing the coming verdict gave them time to steel themselves for the shock and there was no demonstration when the expected blow fell.

Sentence will be pronounced a week from Tuesday, Sept. 2.

CHILDREN BURN TO DEATH

Mother May Also Die as Result of Her Injuries.

Hemingsford, Neb., Aug. 21.—The three children, two, five and eight years old, of J. S. Pittman, a farmer living near here, were burned to death and the home destroyed as a result of a gasoline stove explosion. Mrs. Pittman was surrounded by the children at the time of the explosion and was so severely burned that she is not expected to live.

Pittman, who was working in the field, reached his blazing home in time to save the baby.

SAY CASTRO DIDN'T LAND

Advices From Caracas Assert ex-President Is Not in Venezuela.

Willemstad, Island of Curacao, Aug. 21.—Latest advices from Caracas say that although the Venezuelan government does not admit it the general opinion in Caracas is that ex-President Castro has not landed on Venezuelan soil.

The defeat of the Castro followers at Macuro and in the state of Tachira, it is believed, will have an important effect in bringing the revolution to an end.

SALOON KEEPER LOSES \$215

Cleverly Lured From Place and the Till Robbed.

Milwaukee, Aug. 21.—"Bums are throwing eggs on your back porch," exclaimed a man as he stepped into the saloon of Herman Miller.

Indignant Miller and the stranger went to investigate. He found a bespattered porch, but no bums. The stranger suggested that they might be behind a high fence nearby. Another investigation followed.

When the saloon keeper returned to his place of business the cash drawer was empty.

The amount stolen was \$215.

TO PUNISH SAILORS.

Washington, Aug. 21.—Secretary Daniels has directed the punishment of the sailors of the Pacific reserve fleet who participated in the destruction of the World and Socialists' property in Seattle, July 17-18, if they can be identified, though he severely condemned the civilians who abused the sailors and the American flag.

SAYS WILSON IS STANDING ALONE

DISARMAMENT IS ADVOCATED

Universal Peace Delegates at Hague Adopt Resolutions.

The Hague, Aug. 21.—The chief work of the twentieth universal peace congress at its opening session here was the adoption of three resolutions dealing with disarmament.

The first contained a request that a question of the restriction of armaments be included in the program of the next international Hague conference.

The second protested against the sinister influence of persons interested in armament industries.

The third recommended the draft of a general treaty for gradual disarmament.

OFFICES ON UPPER FLOOR

Martin H. Glynn Secures Executive Chamber at Albany.

Albany, N. Y., Aug. 21.—Martin H. Glynn was officially recognized as acting governor of New York state by the board of trustees of public buildings when new rooms in the capitol were designated as "the executive chamber" for his use.

The assembly parlor and a committee room were set aside as the acting governor's quarters. They are on the upper floor, while the executive offices to which Governor Sulzer still clings are on the floor below.

As his first act after moving into the new offices Mr. Glynn issued a statement outlining his policy.

Mexican President Replies to the American Note.

ANSWER NOT YET COMPLETE

Huerta Intimates President Wilson is Not Backed by Congress or the People of the United States in His Stand Against Recognition of the Present Mexican Government.

Washington, Aug. 21.—Intimations are contained in Provisional President Huerta's reply to the American note presented by John Lind that President Wilson is not backed up by congress or the American people in his stand against recognition of the Huerta government.

Referring to the attacks on the Washington administration by members of congress and pointing to the official relations of Ambassador Henry Lane Wilson, advising recognition, Huerta declares he is entitled to be recognized.

Huerta holds that the Democratic party's power is temporary and argues that recognition of his government is a partisan question in the United States.

He intimates that he reaches his conclusion on private advices from Washington.

The information was obtained from those who know the contents of the Huerta note so far as it has been deciphered.

The complete note is not at hand, but the principal argument has been placed before administration officials.

Though negotiations between John Lind, personal representative of President Wilson, and Provisional President Huerta are continuing on a cordial personal basis neither side is receding from its position and alternative measures already are under consideration here.

Intervention Seems Unlikely.

No definite plan has been formulated, but the policy that is at present under consideration and most likely to be adopted is one of absolute noninterference.

The American government under such a policy would continue to deny arms to both sides, would withdraw Americans from trouble zones, insist on proper protection to property and lives and, in effect, let the Mexicans continue their controversy on the battlefield.

The proposals of the Washington government which Mexico rejected in toto were:

First, complete cessation of hostilities; second, that President Huerta resign in favor of a president ad interim; third, the fixing of an early date for the presidential elections, and, fourth, that General Huerta should not be a candidate for the presidency.

General Huerta's flat refusal to accede to the four demands would appear to be sufficient reason to consider that the negotiations between the two governments were definitely concluded, but in replying General Huerta himself injected into the controversy a counter demand—that of recognition.

In a general way President Huerta places the blame for civil war upon the United States.

At the American embassy no one is promising or denying a resumption of the negotiations. Mr. Lind did not appear very optimistic on this score.

EARNINGS SHOW AN INCREASE

Railroads of Minnesota Make Gain of Eighteen Per Cent.

St. Paul, Aug. 21.—Railroad gross earnings for the first six months of 1913 in Minnesota will approximate \$50,000,000, an increase of 18 per cent over the same period last year. This is shown by a tabulated comparison made for twenty-four lines which have reported by Glaukus Bomback, accountant in the office of State Auditor Iverson. At 5 per cent the state tax will amount to \$2,500,000 for this period, about \$175,000 over the estimate made by the tax commission.

MILLIONAIRE SUED BY GIRLS

Trio Asks Damages of \$50,000 Each for Alleged Assault.

Los Angeles, Cal., Aug. 20.—George Bixby, Long Beach millionaire, was made defendant in three \$50,000 damage suits filed by girl witnesses in so called white slave cases pending here. The plaintiffs are Irene Brown Levy, Cleo Helen Barker and Jeanette Elit.

The complainants charge Bixby with "maliciously assaulting, wounding, bruising and committing crimes upon the persons of the plaintiffs within the past year."

FARGO PIONEER DIES.

Fargo, N. D., Aug. 21.—J. N. Gaard, pioneer resident of Fargo, died suddenly following a few hours' illness. Death was due to apoplexy. He was a fifty-five years old and an undertaker.

Men who went to Alabama to attend the funeral of the late Senator Johnston came home with inside information concerning the Alabama situation, which explains the action of the governor. For nearly a year Congressman Hobson has been making a canvass for the senate. It is generally conceded that he would have given Johnston a hard race and that now he can probably defeat almost any other man except Majority Leader Underwood, and Underwood is not a candidate.

Governor O'Neal is very much opposed to Hobson. He knows that if a special election should be called Hobson has a great advantage on account of the canvass he has made and with a good organization in every county. That is why he does not want to promote Hobson's chances and desires to have his appointee seated while the opposition gets its forces organized against Hobson.

Lining Up the Parties.

Chairman Simmons attempted to fix a time for a vote on the tariff bill, and all he accomplished was in lining up all the Republicans, regulars and progressives, in opposition to the bill. Perhaps that was satisfactory. It also showed that the Democrats had determined to stand by their caucus action and support the bill without amendment.

When the last Democratic tariff bill was passed a caucus arrangement was necessary, only then the minority was able to hold up the majority of the party for higher duties. Senator Mills of Texas was often twitted by Senator Hoar of Massachusetts of promising the people of his state free coal if the Democrats came into power, and he would then ask Mills to move a free coal amendment.

Mills would fume and burst out with a declaration that it was well known that his hands had been tied by the caucus action.

Votes of Yesteryear.

Hours were consumed recently in the senate upon the subject of how men voted on different amendments to the tariff bill four years ago. Talking about the nonimportance of "last year's birds' nests," it would seem that tariff votes four years ago have about as much bearing upon the questions before the senate as the nests in which the last crop of birds were hatched has upon the taste of the fowls.

Must Be a Real Humorist.

"Unless a man is a real humorist he had better not undertake to indulge in humor," remarked Senator Gallagher in the senate. The New Hampshire senator went on to say that a few days previously he had attempted a bit of humor and it had been taken so seriously that he was moved to make an explanation. There are only a very few humorists in the senate.

Lodge Scores a Point.

It has often been asserted that Senator Lodge never shows a sense of humor, yet he scored on John Sharp Williams the other day. The debate had been running along outside of real tariff discussion for two hours, during which Williams had spoken several times, when Lodge obtained the floor.

"I hope we may now get back to the tariff schedules," said the Mississippi senator.

"I fully sympathize with the anxiety of the senator from Mississippi," said Lodge. "I always feel that way myself after I have spoken three or four times on a subject, and I then think that the debate ought to close, as I do not want others to talk."

Rather Cold Comfort.

Senator Thornton of Louisiana voted with the Republicans for protection on certain agricultural products, but there was cold comfort in that for the minority party. They knew that Thornton hoped to secure support from the agricultural states for a duty on sugar.

MAURY I. DIGGS.

Is Found Guilty of Violating Mann Act.

DIGGS GUILTY OF VIOLATING MANN ACT

Californian May Be Given Twenty Years in Prison.

San Francisco, Aug. 21.—In eloping with Marsha Warrington from Sacramento, Cal., to Reno, Nev., Maury I. Diggs, former state architect of California, was found guilty of violating the Mann act, which makes it a felony to transport women for immoral purposes from one state to another.

This was the verdict of the jury that tried him.

There were six counts in the indictment and the jury found a verdict of guilty on the first four. Each count carries a maximum penalty of five years and a minimum of one year in a federal penitentiary.

Diggs, his wife, father, mother and his three aunts, Mrs. Drew Caminetti and Mrs. Anthony Caminetti, were in court, waiting the verdict. Diggs was obviously distressed and his wife showed the tension she was under.

The questions of the foreman clearly foreshadowing the coming verdict gave them time to steel themselves for the shock and there was no demonstration when the expected blow fell.

Sentence will be pronounced a week from Tuesday, Sept. 2.

CHILDREN BURN TO DEATH

Mother May Also Die as Result of Her Injuries.

Hemingsford, Neb., Aug. 21.—The three children, two, five and eight years old, of J. S. Pittman, a farmer living near here, were burned to death and the home destroyed as a result of a gasoline stove explosion. Mrs. Pittman was surrounded by the children at the time of the explosion and was so severely burned that she is not expected to live.

Pittman, who was working in the field, reached his blazing home in time to save the baby.

SAY CASTRO DIDN'T LAND

Advices From Caracas Assert ex-President Is Not in Venezuela.

Willemstad, Island of Curacao, Aug. 21.—Latest advices from Caracas say that although the Venezuelan government does not admit it the general opinion in Caracas is that ex-President Castro has not landed on Venezuelan soil.

The defeat of the Castro followers at Macuro and in the state of Tachira, it is believed, will have an important effect in bringing the revolution to an end.

SALOON KEEPER LOSES \$215

Cleverly Lured From Place and the Till Robbed.

Milwaukee, Aug. 21.—"Bums are throwing eggs on your back porch," exclaimed a man as he stepped into the saloon of Herman Miller.

Indignant Miller and the stranger went to investigate. He found a bespattered porch, but no bums. The stranger suggested that they might be behind a high fence nearby. Another investigation followed.

When the saloon keeper returned to his place of business the cash drawer was empty.

The amount stolen was \$215.

TO PUNISH SAILORS.

Washington, Aug. 21.—Secretary Daniels has directed the punishment of the sailors of the Pacific reserve fleet who participated in the destruction of the Industrial Workers of the World and Socialists' property in Seattle, July 17-18, if they can be identified, though he severely condemned the civilians who abused the sailors and the American flag.

SAYS WILSON IS STANDING ALONE

DISARMAMENT IS ADVOCATED

Universal Peace Delegates at Hague Adopt Resolutions.

The Hague, Aug. 21.—The chief work of the twentieth universal peace congress at its opening session here was the adoption of three resolutions dealing with disarmament.

The first contained a request that a question of the restriction of armaments be included in the program of the next international Hague conference.

The second protested against the sinister influence of persons interested in armament industries.

The third recommended the draft of a general treaty for gradual disarmament.

OFFICES ON UPPER FLOOR

Martin H. Glynn Secures Executive Chamber at Albany.

Albany, N. Y., Aug. 21.—Martin H. Glynn was officially recognized as acting governor of New York state by the board of trustees of public buildings when new rooms in the capitol were designated as "the executive chamber" for his use.

The assembly parlor and a committee room were set aside as the acting governor's quarters. They are on the upper floor, while the executive offices to which Governor Sulzer still clings are on the floor below.

As his first act after moving into the new offices Mr. Glynn issued a statement outlining his policy.

Mexican President Replies to the American Note.

ANSWER NOT YET COMPLETE

Huerta Intimates President Wilson is Not Backed by Congress or the People of the United States in His Stand Against Recognition of the Present Mexican Government.

Washington, Aug. 21.—Intimations are contained in Provisional President Huerta's reply to the American note presented by John Lind that President Wilson is not backed up by congress or the American people in his stand against recognition of the Huerta government.

Referring to the attacks on the Washington administration by members of congress and pointing to the official relations of Ambassador Henry Lane Wilson, advising recognition, Huerta declares he is entitled to be recognized.

Huerta holds that the Democratic party's power is temporary and argues that recognition of his government is a partisan question in the United States.

He intimates that he reaches his conclusion on private advices from Washington.

The information was obtained from those who know the contents of the Huerta note so far as it has been deciphered.

The complete note is not at hand, but the principal argument has been placed before administration officials.

Though negotiations between John Lind, personal representative of President Wilson, and Provisional President Huerta are continuing on a cordial personal basis neither side is receding from its position and alternative measures already are under consideration here.

Intervention Seems Unlikely.

No definite plan has been formulated, but the policy that is at present under consideration and most likely to be adopted is one of absolute noninterference.

The American government under such a policy would continue to deny arms to both sides, would withdraw Americans from trouble zones, insist on proper protection to property and lives and, in effect, let the Mexicans continue their controversy on the battlefield.

The proposals of the Washington government which Mexico rejected in toto were:

First, complete cessation of hostilities; second, that President Huerta resign in favor of a president ad interim; third, the fixing of an early date for the presidential elections, and, fourth, that General Huerta should not be a candidate for the presidency.

General Huerta's flat refusal to accede to the four demands would appear to be sufficient reason to consider that the negotiations between the two governments were definitely concluded, but in replying General Huerta himself injected into the controversy a counter demand—that of recognition.

In a general way President Huerta places the blame for civil war upon the United States.

At the American embassy no one is promising or denying a resumption of the negotiations. Mr. Lind did not appear very optimistic on this score.

EARNINGS SHOW AN INCREASE

Railroads of Minnesota Make Gain of Eighteen Per Cent.

St. Paul, Aug. 21.—Railroad gross earnings for the first six months of 1913 in Minnesota will approximate \$50,000,000, an increase of 18 per cent over the same period last year. This is shown by a tabulated comparison made for twenty-four lines which have reported by Glaukus Bomback, accountant in the office of State Auditor Iverson. At 5 per cent the state tax will amount to \$2,500,000 for this period, about \$175,000 over the estimate made by the tax commission.

MILLIONAIRE SUED BY GIRLS

Trio Asks Damages of \$50,000 Each for Alleged Assault.

Los Angeles, Cal., Aug. 20.—George Bixby, Long Beach millionaire, was made defendant in three \$50,000 damage suits filed by girl witnesses in so called white slave cases pending here. The plaintiffs are Irene Brown Levy, Cleo Helen Barker and Jeanette Elliot.

The complainants charge Bixby with "maliciously assaulting, wounding, bruising and committing crimes upon the persons of the plaintiffs within the past year."

FARGO PIONEER DIES.

Fargo, N. D., Aug. 21.—J. N. Gaard, pioneer resident of Fargo, died suddenly following a few hours' illness. Death was due to apoplexy. He was fifty-six years old and an undertaker.

KIDDO.

The White Line.

The late David Christie Murray on one occasion told the story of the champion printer's error of his experience to this effect:

"I wrote at the close of the story of 'Grace Forbeach': 'Are there no troubles now?' the lover asks. 'Not one, dear Frank, not one.' And then, in brackets, thus [] I set the words [White line]. This was a technical instruction to the printer and meant that one line of space should be left clear. The genius who had the copy in hand put the lover's speech in type correctly and then, setting it out as if it were a line of verse, he gave me: 'Not one, dear Frank, not one white line!'"

Gravitation.

The law of gravitation is thus given
in Newton's words: "Every particle of
matter in the universe attracts every
other particle with a force whose di-
rection is that of the straight line join-
ing the two and whose magnitude is
proportional directly as the product
of their masses and inversely as the
square of their mutual distance."

Picking on Him.

A first grade boy brought perfect
spelling papers home for several weeks
and then suddenly began to miss five
and six out of ten.
"How's this, son?" asked his father.
"Teacher's fault," replied the boy.
"How is it the teacher's fault?"
"She moved the little boy that sat
next to me."

The White Line.

The late David Christie Murray on
one occasion told the story of the
champion printer's error of his expe-
rience to this effect:
"I wrote at the close of the story of
'Grace Forbench': 'Are there no trou-
bles now?' the lover asks. 'Not one,
dear Frank, not one!' And then, in
brackets, thus [] I set the words
[White line]. This was a technical in-
struction to the printer and meant that
one line of space should be left clear.
The genius who had the copy in hand
put the lover's speech in type correctly
and then, setting it out as if it were a
line of verse, he gave me:
'Not one, dear Frank, not one white
line!'"

Unsightly Face Spots

Are cured by Dr. Hobson's Eczema
Ointment, which heals all skin eruptions.
No matter how long you have
been troubled by itching, burning, or
scaly skin humors, just put a little
of that soothing antiseptic, Dr. Hob-

and the suffering stops instantly.
Healing begins that very minute.
Doctors use it in their practice and
recommend it. Mr. Allemen, of Lit-

BARROWS MINE ADDING MORE MEN

ers and Business Men at Barrows appreciate Supt. Nichols Work at the Mine

COOL BD. \$8,000 STATE LOAN

l and Implement Warehouse to be Built in Rear of Town Hall

—Other News

Barrows, Minn., August 21—The Barrows mine is putting on more men right along and the business men appreciate it as much as the miners. They all report very good business since the mine has been dry and ore hoisting is in progress.

The school board of District No. 1 has called a special meeting for August 23 in regard to the \$8,000 loan from the state and immediately after the meeting bids will be called for the contract of the new school to be erected this fall.

The town board of the township of Crow Wing met Tuesday afternoon and among other business ordered the clerk to call for bids on the plan and implement house to be built in the rear of the town hall.

W. J. Bird and John Wahl, of Duluth, were in town for a few minutes stay Monday.

Edgar Peterson and Elmer Tontoff went to Port Ripley Saturday night to take in the dance which did not seem to satisfy them entirely and they went on to Little Falls Sunday morning to take in the baseball game. They report weather conditions to be fair lower down the river.

John D. Gile says he is getting too old, so he has taken to mining at the Barrows mine and says he is feeling better now.

Harold Olson returned Monday morning from his extended trip over the Mesaba range and Duluth.

Miss Edith Klinkenberg, who has been spending a few weeks with Mr. and Mrs. R. C. Klinkenberg, left Saturday noon for her home in Minneapolis.

Mr. and Mrs. Peter Sand, of Crow Wing, visited with friends here Monday.

W. M. Mason, general manager of the Mason Lumber yards, was in town Friday, leaving again Saturday morning for Palisade where they have one of their yards. Mr. Mason reports that business is fairly good and that people are still on the market for lumber.

A. Quackenbush received his bright red buggy Saturday and anyone can hear him coming long before he is in sight.

The dance to be given by the Peterson brothers Saturday night was postponed on account of the severe weather conditions until next Saturday.

F. E. Farnsworth, of Cresco, Iowa, who is staying with the C. B. Peck family for a few days, left for Duluth Saturday noon on account of the

hay fever, believing that the incomparable "It is Cool in Duluth" will knock the aggravating affliction in to the middle of next week.

J. D. Gile left for North Dakota where he will visit with friends and relatives until the chicken season opens and then he expects to get some fine chicken shooting.

R. Englund, of Eveleth, stopped off for a few hours Tuesday to look over some real estate. Mr. Englund was impressed with Barrows and its growth.

E. B. Quackenbush claims to have the largest carrots raised in the county this year.

Adolph Hagberg left for the Dakotas the first part of the week to work in the harvest fields.

Mrs. Hughes, of Hibbing, is visiting with her parents, Captain and Mrs. Tallon.

R. Bergum has returned from a business trip to Duluth.

Barrows will soon have a restaurant as Fred Revier will have his building completed in a few weeks.

Ed. Behrandt has opened a shooting gallery and reports good business.

Tom Klasey has left for Conway, N. D., where he will join his father harvesting.

A party of fishermen from Barrows enjoyed a week's outing at Gull lake and report a fine time and a good catch.

C. B. Peck expects his roller skates for his new rink soon.

LAST NIGHT'S STORM

Plays Havoc With Electric Light Wires, Trees, Etc., in Brainerd and Other Points

Wednesday night's storm was accompanied with the whirl and fury of a near cyclone and trees and branches were torn down on various parts of the Cuyuna range.

In the city electric light wires were broken in all sections of the town and linemen worked all night after the storm repairing the breaks.

For a short period the Cuyuna Range Power company shut off current and towns were dark until the storm had vent its fury.

The Ingalls Motor Boat launches on Serpent lake waited until the wind died down before putting out to sea and running over to Deerwood.

It is reported that the storm was severe at Gull lake and that many docks at summer resorts and small boats anchored in the lake were injured.

ABOUT STREET CROSSINGS

Citizen Wants Crossing Which Does Not Make It Necessary to Step in Gutters Twice

"The plan of street crossing on the new cement streets is not conducive to the Roosevelt idea of race propagation said a north sider to the Dispatch this morning. 'I've pushed the baby cab some and hope to continue awhile but those street crossings 'get my goat.' 'But seriously' said he, 'the pedestrian, the woman with the baby cab and all users of the walks generally would certainly prefer that type of crossing which does not make it necessary to step into the gutter twice in crossing a street.'

"Many cities have the walk continuous with a bridging of iron over the gutter similar to the new street crossings on Laurel street. The crossing could conform more with the grade of the street than these but walking would be better and only the auto exceeding the speed limit would be inconvenienced.

There cannot but be an accumulation of slush in the gutters during certain times of the winter, which would be overcome by this suggested style of crossing.

An example of this may now be seen at the corner of Kingwood and Seventh. The water is retarded in its flow and one must leap four feet or go around. Surely this is worth considering by those who are 'doing it.'

NORMAL TRAINING DEPT.

State Board Has Authorized This New Department for the Brainerd High School

The state high school board has again authorized the establishment of a normal training department in connection with the high school at Brainerd. The same action was taken a year ago but the number of applicants for admission was not sufficient to insure the state aid. Such a department is greatly needed in a city of this size and in as prominent a county, educationally as Crow Wing county. It is particularly needed at this time, since the last legislature did away entirely with the issuing of permits. The following information is offered for the benefit of any who may be interested in this department:

1st. A normal training department is for only those who are preparing to teach.

2nd. It is open to all high school students who have had one year or more of credit in the high school.

3rd. Students who complete successfully the year work in the training department, are granted certificates as soon as they are of legal age.

4th. Students who enroll in the training department, with three years of high school credits, after completing the one year training course successfully, will be granted a 1st grade teacher's certificate and will receive the regular high school diploma and be graduated the same as if taking the regular high school work.

5th. High school graduates who pursue the training course after regular graduation, will in addition to receiving a 1st grade certificate, be allowed credit at the state normal schools, depending in amount on the general quality of their work.

Nature of Work.

1st. The department will be in charge of an able, experienced teacher of special education and approved by the state department.

2nd. The work will consist of a careful study of the common school subjects that are taught in the rural schools and methods of teaching them.

3rd. A model, practice school, made up of pupils of various ages and grades will be maintained for practice teaching, supervised by the

—Other News

Barrows, Minn., August 21—The Barrows mine is putting on more men right along and the business men appreciate it as much as the miners. They all report very good business since the mine has been dry and ore hoisting is in progress. The school board of District No. 1 has called a special meeting for August 23 in regard to the \$8,000 loan from the state and immediately after the meeting bids will be called for the contract of the new school to be erected this fall.

The town board of the township of Crow Wing met Tuesday afternoon and among other business ordered the clerk to call for bids on the plan and implement house to be built in the rear of the town hall. W. J. Bird and John Wahl, of Duluth, were in town for a few minutes stay Monday.

Edgar Peterson and Elmer Tontie went to Fort Ripley Saturday night to take in the dance which did not seem to satisfy them entirely and they went on to Little Falls Sunday morning to take in the baseball game. They report weather conditions to be fair lower down the river.

John D. Gile says he is getting too old, so he has taken to mining at the Barrows mine and says he is feeling better now.

Harold Olson returned Monday morning from his extended trip over the Mesaba range and Duluth.

THE WINDS AND THE WAVES OBEY HIM

Pastor Russell and Party En Route For Europe.

The Storm on Galilee's Sea Furnishes Text For a Discourse—Acts as Well as Words of Jesus Parabolic—The Storm as a Type—The Master and His Disciples as Types—Quelling the Storm a Type—Also the Great Calm.

PASTOR RUSSELL

Aboard "The Empress of Ireland," on the Atlantic.

"There arose a great tempest in the sea * * * but He was asleep. And His disciples awoke Him, saying, Lord, save us; we perish. * * * Then He arose and rebuked the winds and the sea; and there was a great calm."—Matthew 8:24-26.

The Bible informs us that Jesus' teachings were parabolic. The Master explained some of His actions and words to His disciples, and told them that they alone were permitted to know the mysteries of the Kingdom of Heaven. He did not explain all of His parables even to His Apostles. On the contrary, He said, "When the Spirit of Truth is come [at Pentecost and after], He shall guide you into all Truth, and bring all things to your remembrance whatsoever I have spoken."

Since Pentecost, therefore, Jesus' followers can understand His teaching in a way that His earliest followers could not. It was not expedient that natural men should understand clearly the Divine Plan. St. Peter declared that if the Jewish rulers had known, they would not have crucified the Prince of Life. But only by Jesus' crucifixion could the Divine Plan be carried out. Therefore it was hidden from those for whom it was not intended.

This was a blessing; for if they had done those things under full light and knowledge, their guilt would have been much greater. They are, therefore, to be punished according to their limited light and knowledge.

The same principle obtains respecting the whole world; light increases responsibility. He that knew the Master's will, and did it not, shall receive many stripes; he that knew not the Master's will, and did things worthy of stripes, shall receive few stripes. Those begotten of the Holy Spirit as God's children have the highest responsibility, because they have the greatest knowledge. They alone could commit the sin unto death, as St. Paul explains.—Hebrews 6:1-6; 10:26, 27.

The secret of the demarcation between the Church and the world is that the former has the Holy Spirit begetting to a new nature, with privileges of knowledge of God and His plans not granted others. Only the outlines of the Divine Character and Plan can be clearly discerned and appreciated by those not spirit-begotten.

The Boat and the Storm in Antitype.

Our lesson typically considered, the boat would represent the Gospel Dispensation; the Master asleep, the Lord's apparent indifference to the storms of persecution assailing His Church; and the disciples' imploring cry, the prayers of the Church throughout the Age.

After our Lord's ascension, storms of persecution followed one another until the history of the true Church has been marked by severe trials of patience and faith. Often the Lord's people have wondered at the afflictions permitted to come upon them. It seemed as though the Lord did not care.

We might reason that if God had raised the storm which frightened experienced fishermen, surely Jesus would not have worked contrary to the Divine arrangement. We might also reason that Satan, "the Prince of the Power of the Air," might have thought to thwart the Divine arrangement respecting Jesus' crucifixion.

Storm of Trouble is Near.

Bible students are convinced that the great storm of trouble upon the Church is very near. We need not prophesy concerning its character. We are to remember, however, that the majority of the storms upon the Church have come from professed people of God, rather than from the world. The Scribes, Pharisees and Doctors of the Law really crucified Jesus, as St. Peter declared.—Acts 3:13-15.

Our expectation is that the Church will have its most trying experiences from professed brethren. Church Federation has a sincere and innocent look; but is not its purpose and object to fortify sectarianism? Should we not expect that, when it shall gain the measure of political influence and power indicated in the symbolic book of Revelation, those holding a simple faith in God and His Word, and striving to walk the narrow way, will be misrepresented, slandered and eventually hindered from the Lord's service?

The Lord seems to indicate that His Church will be perfected on the Heavenly plane before the world's tribulation shall break in fury. True, the Church may escape in the sense of being enabled to live above the trouble—unaffected by it; but we think not. We believe that the Church will have passed into glory before the culmination of the world's Day of Wrath.

She Was a Bit Bashful.

Mr. Peet, a very diffident man, was unable to prevent himself being introduced one evening to a fascinating young lady, who, misunderstanding his name, constantly addressed him as Mr. Peters, much to the gentleman's distress. Finally summoning up the courage, he earnestly remonstrated: "Oh, don't call me Peters. Call me Peet!"

"Ah, but I don't know you well enough, Mr. Peters," said the young lady, blushing, as she withdrew behind her fan.—London Telegraph.

How Manufacturing Cooperation Benefits the Public

Here is an interesting example of how honest, intelligent co-operation benefits the buying public. Here is a company whose methods and success are a valuable lesson to the business men of the world—showing them how a large number of retail merchants in a particular class by joining forces, have secured advantages for themselves and their customers impossible to get in any other way.

Eleven years ago forty retail druggists organized what is today known as The United Drug Company. It now comprises more than 7,000 leading retail druggists in each important city and town in the United States, Canada and Great Britain, each a part owner of this great enterprise.

Our big laboratories in Boston and Toronto, where Rexall Toilet Articles are made; our immense candy factories in Boston and Baltimore; our perfume manufacturing plant in Boston, by many said to be the finest in the world; our fruit juice and fountain supply factory in Boston; our soap factory in Paris, France; and our various

other manufacturing and distributing plants in Boston, Chicago, St. Louis, Liverpool, Eng., and other cities—occupy a total of more than a million square feet, or 23 acres of floor space. In addition to the above, we control the entire output of great stationery mills and brush and rubber goods factories.

More than four-fifths of the output of The United Drug Company is of such lines of merchandise—toilet goods, candy, stationery, brushes, rubber goods, etc.—as formerly were carried, if at all, by druggists only as "side lines."

Thus, through co-operation in manufacturing and distribution, The Rexall Stores are now able to specialize in other merchandise than drugs and medicines. They have become department stores, in which all departments have equal advantage in variety, high quality and low prices.

Because they are both manufacturers and retailers, The Rexall Stores occupy a most favorable position, for they can, and do, sell all these big lines at lowest prices consistent with high quality, and in every instance with a personal guarantee of satisfaction or money back.

The above facts should convince you of the advantages of trading at The Rexall Stores. Some of these advantages have to do with the following lines of merchandise, all of which you can get only at The Rexall Store in your town:

Rexall Toilet Goods. Including shaving requisites, tooth preparations, toilet creams, soaps and many other toilet necessities, each fresh, pure and beneficial.

Violet Dulce Perfumes and Toilet Preparations. An exquisitely scented, beautifully-packaged line, comprising extract, toilet water, talcum, complexion powders, complexion creams and other dainty toilet accessories.

A Long Scold.

Brewster, who was returning late from his club, was received by his wife on entering the bedroom with a well rehearsed curtain lecture. Two hours later he again wended his way home and picked up his ears on reaching the bedroom door.

"H'm! She didn't notice it!" said he, chuckling to himself. "She's still scolding!"—Glasgow Herald.

The Storm on Galilee's Sea Furnishes Text For a Discourse—Acts as Well as Words of Jesus Parabolic—The Storm as a Type—The Master and His Disciples as Types—Quelling the Storm a Type—Also the Great Calm.

PASTOR RUSSELL

Aboard "The Empress of Ireland," on the Atlantic, "There arose a great tempest in the sea..." but He was asleep. And His disciples awoke Him, saying, "Lord, save us; we perish." Then He arose and rebuked the winds and the sea; and there was a great calm.—Matthew 8:24-26.

The Bible informs us that Jesus' teachings were parabolic. The Master explained some of His actions and words to His disciples, and told them that they alone were permitted to know the mysteries of the Kingdom of Heaven. He did not explain all of His parables even to His Apostles. On the contrary, He said, "When the Spirit of Truth is come [at Pentecost and after], He shall guide you into all Truth, and bring all things to your remembrance whatsoever I have spoken." Since Pentecost, therefore, Jesus' followers can understand His teaching in a way that His earliest followers could not. It was not expedient that natural men should understand clearly the Divine Plan. St. Peter declared that if the Jewish rulers had known, they would not have crucified the Prince of Life. But only by Jesus' crucifixion could the Divine Plan be carried out. Therefore it was hidden from those for whom it was not intended.

This was a blessing; for if they had done those things under full light and knowledge, their guilt would have been much greater. They are, therefore, to be punished according to their limited light and knowledge.

The same principle obtains respecting the whole world; light increases responsibility. He that knew the Master's will, and did it not, shall receive many stripes; he that knew not the Master's will, and did things worthy of stripes, shall receive few stripes. Those begotten of the Holy Spirit as God's children have the highest responsibility, because they have the greatest knowledge. They alone could commit the sin unto death, as St. Paul explains.—Hebrews 6:1-6; 10:26, 27.

The secret of the demarcation between the Church and the world is that the former has the Holy Spirit begetting to a new nature, with privileges of knowledge of God and His plans not granted others. Only the outlines of the Divine Character and Plan can be clearly discerned and appreciated by those not spirit-begotten.

The Boat and the Storm in Antitype.

Our lesson typically considered, the boat would represent the Gospel Dispensation; the Master asleep, the Lord's apparent indifference to the storms of persecution assailing His Church; and the disciples' imploring cry, the prayers of the Church throughout the Age.

After our Lord's ascension, storms of persecution followed one another until the history of the true Church has been marked by severe trials of patience and faith. Often the Lord's people have wondered at the afflictions permitted to come upon them. It seemed as though the Lord did not care.

We might reason that if God had raised the storm which frightened experienced fishermen, surely Jesus would not have worked contrary to the Divine arrangement. We might also reason that Satan, "the Prince of the Power of the Air," might have thought to thwart the Divine arrangement respecting Jesus' crucifixion.

Storm of Trouble Is Near.

Bible students are convinced that the great storm of trouble upon the Church is very near. We need not prophesy concerning its character. We are to remember, however, that the majority of the storms upon the Church have come from professed people of God, rather than from the world. The Scribes, Pharisees and Doctors of the Law really crucified Jesus, as St. Peter declared.—Acts 3:13-15.

Our expectation is that the Church will have its most trying experiences from professed brethren. Church Federation has a sincere and innocent look; but is not its purpose and object to fortify sectarianism? Should we not expect that, when it shall gain the measure of political influence and power indicated in the symbolic book of Revelation, those holding a simple faith in God and His Word, and striving to walk the narrow way, will be misrepresented, slandered and eventually hindered from the Lord's service?

The Lord seems to indicate that His Church will be perfected on the Heavenly plane before the world's tribulation shall break in fury. True, the Church may escape in the sense of being enabled to live above the trouble—unaffected by it; but we think not. We believe that the Church will have passed into glory before the culmination of the world's Day of Wrath.

"Ah, but I don't know you well enough," Mr. Peters, said the young lady, blushing, as she withdrew behind her fan.—London Telegraph.
